---

*I am a Full Stack developer with 2 years of experience with a focus on **frontend development**. I have experience and knowledge in **React.js**, **CSS**, **JavaScript**, **Firebase**, **Redux Toolkit**, and **Stripe**.*

*I have worked on various individual and group projects related to **e-commerce**, **payment gateways**, and more.*

*I am known for being proactive, a team player, self-taught, and having a quick learning ability. I have an **intermediate-advanced** level of English (B2).*

## PROFESSIONAL EXPERIENCE

---

### "ChampionGear"

#### Frontend Developer

July 2024 – August 2024

In this temporary project, I developed a **sports clothing e-commerce** website.

- Collaborated in implementing the **frontend** of the e-commerce platform using **React.js**, **Redux Toolkit**, and **Firebase** for user authentication.
- Integrated **Stripe** payment gateway to handle secure transactions.
- Designed and developed reusable components to improve user experience and visual consistency.
- Worked in an interdisciplinary team, collaborating on the **backend** with **Node.js** and **PostgreSQL**, optimizing the communication between the frontend and backend.

### Full Stack Themed Cards Website

#### Full Stack Developer

June 2024 – July 2024

In this temporary project, I developed a complete website with a **backend**, **database**, and **frontend**. The application made requests to an external API to generate thematic cards, allowing users to view details of each card.

- Created an interactive **React.js** web application that consumed an external API to display detailed card information.
- Implemented logic to handle different routes, application states using **Redux**, and asynchronous communication with the API via **Axios**.
- Designed the interface using **CSS Modules** for a clean and modular style.

In this freelance project, I developed the frontend of a platform to showcase a distributor's product catalog.

- Implemented the user interface using **Next.js** with **TypeScript**, ensuring scalable and maintainable code.
- Designed and developed reusable components with **Tailwind CSS** and the **shadcn** library, achieving a modern and functional design.
- Displayed the distributor's products from a **JSON** file, without the need for a database or backend.
- Optimized the user experience with an intuitive and responsive interface, ensuring smooth navigation across different devices.

## TECHNOLOGIES

---

- **Frontend:** React.js, Redux Toolkit, JavaScript, Typescript, Next.js, Tailwind CSS, HTML, CSS Modules
- **Backend:** Node.js, Express
- **Database:** PostgreSQL
- **Authentication and Payments:** Firebase, Stripe
- **Tools:** Git, GitHub, Axios
- **Additional Programming Languages:** Python, C++

## EDUCATION

---

### Universidad Tecnológica Nacional (UTN)

*University Degree in Programming (50% of the course completed)*

Bahía Blanca, Argentina

March 2024 – Present

## ADDITIONAL EDUCATION

---

### Soy Henry Bootcamp

*Full Stack Developer (800+ hours of theory and practice)*

August 2023 – August 2024

### Cisco Networking Academy

*Python Essentials 1*

May 2023 – May 2023

## LANGUAGES

---

- **Spanish:** Native
- **English:** Intermediate (B2)
